

School LAND Trust Program Annual Statewide Distribution 2001-2016

The School LAND Trust Program, established by the legislature in 1999, distributes the “annual dividend” from the permanent State School Fund through school districts to all public schools (including charter schools) in the state. School Community Councils, or Charter Trust Land Councils, in each school prepare a plan to address the greatest academic need with the dividend. Local School Boards approve the plans in the spring and schools with approved plans receive funding in the summer for the next school year. Plans for the upcoming school year and reports on expenditures and plan implementation are reviewed by local boards annually. Funding for the program flows through the district business administrators and goes through the same audit procedures as other school funding.

Average Distributions for the 2015-2016 School Year

An average elementary school received \$44200

An average middle/junior high school received \$62300

An average high school received \$74400

The average per-pupil distribution was \$73
