

# 2019-2020 School Year

## Utah School Registration Immunization Requirements

Utah State Law requires that all students must submit a completed immunization record to the school **BEFORE THE FIRST DAY OF SCHOOL ATTENDANCE. THESE REQUIREMENTS ARE IN EFFECT FOR THE 2019-2020 SCHOOL YEAR IN ALL UTAH PUBLIC AND PRIVATE SCHOOLS.** A student must have proof of the following immunizations for school enrollment or submit one of the three exemptions listed below.

### EXEMPTIONS

#### PERSONAL RELIGIOUS & MEDICAL

All **new** students, students entering **Kindergarten and 7<sup>th</sup> grade** the legal guardian must complete an on-line educational module (free of charge) and provide a copy of the completed form to the school official. The on-line course can be found at [www.immunize-utah.org](http://www.immunize-utah.org). *Completion of the on-line educational module can be done at the Health Department if you do not have access to a computer.* For a **medical exemption**, a written note from a licensed health care provider must be provided along with a copy of the completed on-line educational module. It should state the physical condition of the student, and why that vaccine would endanger the student's life or health.

Results of a completed **TB test (PPD)** given in the U.S. within 90 days or results of a chest x-ray taken within the last year must be presented before school attendance begins by all students who have moved in from a foreign country (except Canada) or who have been out of the country for 6 months or more. A TB test given within the last five years is also required for all entering kindergarten who were born in a foreign country (except Canada). If BCG (a TB immunization) was given within the last year, the student must wait one year from the date of the BCG to receive a PPD, but they may attend school during that time period until the PPD can be given.

*A child may be allowed to attend school "conditionally" if at least one dose of each required immunization series has been completed and the child is **currently on schedule** to finish the rest. The remaining immunizations must be completed **on schedule** for the child to remain in attendance.*
