

Utah Goals and Objectives
Caseload Management FY 2017

Goals	Objectives	Activities	Outcome
1. Implement a method for the public to submit an appointment request or application through our public website.			Funding for this project has been received. A scope of work for this project was submitted to our state contracted web developer. It is expected that programming will be underway soon.
2. Provide portable banner stands to local health departments to use for outreach.			The banner stands were successfully deployed to all local health departments.
