

Vendor Violation Points and Sanctions

I. Vendor Violation Points and Sanction Procedures

- a. The State Agency shall determine the type and level of sanctions imposed on the vendor based on the severity, nature, and pattern of the violations.
- b. The State Agency does not have to provide the vendor with prior warning that violations were occurring before conducting compliance purchases or imposing any of the State Agency violation points or sanctions described.
- c. If a State Agency finds that a vendor has committed a violation that requires a pattern of occurrences in order to impose a sanction, the State Agency will notify the vendor of the initial violation in writing prior to documenting another violation, unless the State Agency determines, in its discretion, on a case-by-case basis, that notifying the vendor would compromise the investigation. The State Agency will document the reason why the notification would compromise the investigation. The State Agency may conduct another compliance buy after the vendor receives the notification of violation or is presumed to be received by the vendor, consistent with the State Agency's procedures for providing such notification.
 - i. Notification is not required in the following circumstances:
 1. Violations involving redemptions that exceed the vendor's inventories; WIC vendor disqualifications or civil money penalties based on Supplemental Nutrition Assistance Program (SNAP) sanctions;
 2. Violations that only require one occurrence before a sanction is imposed; or if such notice could compromise covert investigations of the vendor being conducted by SNAP, the USDA Office of the Inspector General, the Utah State Police, the State Agency, or other authorities. The term "investigation" does not exclusively refer to WIC-related investigations.
 - ii. Notice will be provided for violations for a pattern of:
 1. Overcharging;
 2. Receiving, transacting and/or redeeming food instruments outside of authorized channels, including the use of an unauthorized vendor or an unauthorized person;
 3. Charging for supplemental food not received by the participant;
 4. Providing credit or non-food items other than alcohol, alcoholic beverages, tobacco products, cash, firearms, ammunition, explosives, or controlled substances (as defined in 21 U.S.C. 802) in exchange for WIC food instruments or WIC foods;

5. Providing unauthorized food items in exchange for WIC food instruments or WIC foods, including charging for supplemental foods provided in excess of those listed on the check.
 6. This notice requirement also applies to any violations for which a pattern of violations must be established in order to impose a State Agency vendor sanction per 7 CFR 246.12(l)(2).
 - iii. When determining whether to notify the vendor, the State Agency will consider several factors, including but not limited to: the severity of the initial violation, the vendor's compliance history, or whether the vendor has been determined to be a high risk vendor. The State Agency has the discretion to determine which factors to consider and how much weight to assign to each factor. If the State Agency decides not to send the notice, the basis for its decision will be documented in the vendor file.
- d. Establishing a pattern of violations.
 - i. Mandatory Federal Disqualifications: Mandatory Federal Sanctions that require a pattern are assigned a disqualification when at least two (2) independent violations are documented during any compliance investigation.
 - ii. State Agency Sanctions: All State Agency sanctions require documentation of a pattern of the same violation. A pattern of violations requires at least two (2) independent violations documented during any compliance investigation, or at least three (3) independent violations obtained through objective data or other non-compliance purchase investigations during a ninety (90) day period.
 1. The vendor will be provided a warning letter after each of the first two violations and given a fifteen (15) day period to take corrective action after each warning letter.
 - iii. The State Agency may assign violation points for the first State Agency-established violation, if such points will not result in a State agency sanction (for example, a disqualification or civil money penalty/fine).
 1. Violation points operating in the same manner as initial violations do not violate the requirement that State agency sanctions may only be imposed based on a pattern of violations.
 - iv. A pattern of violations may be established during a single review of the vendor's redemption records as part of an inventory audit, depending on the magnitude of shortfalls and the length of time between the violations.
 - v. A pattern of violations is not required for a permanent disqualification or a six (6) year disqualification for the sale of

alcohol, alcoholic beverages, or tobacco products in exchange for WIC food instruments or WIC foods.

- e. When more than one violation is detected during a single investigation, the disqualification period will be based on the most serious violation.
 - f. The State Agency may not accept voluntary withdrawal of a vendor from the WIC Program as an alternative to disqualification.
 - g. Any vendor who commits fraud or abuse of the WIC Program may be prosecuted under applicable federal, state or local laws. Any person who willfully misapplies, steals, or fraudulently obtains program funds, assets, or property valued at \$100 or more will be subject to a fine of not more than \$25,000, imprisonment for not more than five (5) years, or both. If the value is less than \$100, the person will be subject to a fine of not more than \$1,000, imprisonment for not more than one (1) year, or both.
- II. **Mandatory disqualification periods are assigned for the following WIC violations in according to 7 CFR 246.12:**
- a. **Permanent Disqualification from the WIC Program**
 - i. A vendor convicted of trafficking in food instruments or selling firearms, ammunition, explosives, or controlled substances (as defined by 21 U.S.C. 802) in exchange for food instruments or WIC foods; or
 - ii. A vendor is permanently disqualified from SNAP.
 - b. **Six (6) Year Disqualification from the WIC Program**
 - i. One incident of trafficking (buying or selling food instruments for cash); or
 - ii. One incident of selling firearms, ammunition, explosives, or controlled substances (as defined in 21 U.S.C. 802) in exchange for food instruments or WIC foods.
 - c. **Three (3) Year Disqualification from the WIC Program**
 - i. One incident of selling of alcohol or alcoholic beverages or tobacco products in exchange for food instruments or WIC foods;
 - ii. A pattern of claiming reimbursement for the sale of a specific supplemental food item in an amount exceeding the store's documented inventory of that item for a specific period of time;
 - iii. A pattern of vendor overcharges;
 - iv. A pattern of receiving, transacting, or redeeming food instruments outside of authorized channels, including the use of an unauthorized vendor or an unauthorized person;
 - v. A pattern of charging for a supplemental food item not received by the participant; or

- vi. A pattern of providing credit or non-food items other than alcohol, alcoholic beverages, tobacco products, cash, firearms, ammunition, explosives, or controlled substances (as defined in 21 U.S.C. 802) in exchange for food instruments or WIC foods.
- d. **One (1) Year Disqualification from the WIC Program**
- i. A pattern of providing unauthorized food items in exchange for WIC food instruments or WIC foods, including charging for supplemental foods provided in excess of those listed on the food instrument.
- e. **Second Mandatory Sanction**
- i. A vendor that was previously assessed any of the mandatory sanctions listed above shall receive a double sanction for its second violation requiring a mandatory sanction.
 - 1. Civil money penalties may only be doubled up to the limits allowed by this agreement.
- f. **Third or Subsequent Mandatory Sanction.**
- i. A vendor that was previously assessed two or more mandatory sanctions listed above shall receive a double sanction for its third mandatory sanction and any subsequent mandatory sanctions.
 - 1. The State agency may not impose civil money penalties in lieu of disqualification for third or subsequent mandatory sanctions.
- g. **Disqualification from the WIC Program Based on a SNAP Disqualification**
- i. The State Agency shall disqualify a vendor who has been disqualified from SNAP. The WIC Program disqualification will be for the same length of time as the SNAP disqualification. The WIC Program disqualification may begin at a later date than the SNAP disqualification and is not subject to administrative or judicial review under the WIC Program.
- h. **Civil Money Penalties in Lieu of Disqualification (CMP)**
- i. The State Agency may impose a civil money penalty in lieu of a permanent disqualification when it determines, in its sole discretion, and documents that:
 - 1. A permanent disqualification would result in inadequate participant access; and
 - 2. At the time of the violation, the vendor had an effective policy and training program in effect to prevent trafficking and the vendor owners were not aware of, did not approve of, and were not involved in the conduct of the violation. This requires that such policies must have been documented and

- dated in writing prior to the violation and that the training was conducted and documented prior to the violation.
- ii. The State Agency may impose a civil money penalty in lieu of a six (6) to one (1) year mandatory disqualification if it determines (in its sole discretion) and documents that the disqualification would result in inadequate participant access.
 - iii. If the State Agency permits a vendor to continue to participate in the Program in lieu of permanent disqualification, the State Agency shall assess the vendor a CMP in an amount determined in accordance with the following criteria:
 1. The maximum amount of the CMP shall not exceed:
 - a. \$15,041 for each violation; and
 - b. \$60,161 for the total amount of CMP or fines for multiple violations occurring during a single investigation.
 2. If a vendor does not pay, partially pays, or fails to timely pay (in full or any payment under an installment plan) a CMP within thirty (30) days of receipt of a notification letter, the State Agency will disqualify the vendor for the length of the applicable disqualification.
 - iv. Formula for calculation of CMP:
 1. Multiply average monthly redemptions by 10%; multiply result by the number of months that the vendor would otherwise be disqualified = CMP amount.
 - v. The State Agency may allow the vendor to pay the CMP using an installment plan that complies with federal and state laws concerning the collection of interest on such debts.

III. State Agency Violations and Points for Violations

- a. The State Agency may assign violation points for the first State Agency-established violation that is documented during any redemption analysis, monitoring visit, other formal visit, follow-up of previous problems, inventory audit, or any other objective means, if such points will not result in a State agency sanction (for example, a disqualification or CMP/fine).
- b. All State Agency warnings and violation points are cumulative and will be kept current for a period of two (2) years as long as the vendor is authorized on the Program.
 - i. Warnings and violation points accrued for each violation will be dropped two (2) years after the date of that violation, regardless of a renewal of a vendor agreement during that period.
 - ii. The State Agency will not otherwise remove any violation points, unless it is determined that points need to be removed by any objective means of the State Agency, a Fair Hearing, or judicial order.

- c. Food vendors may be subject to claims for improper redemption, overcharged food instrument, or reimbursement for overcharges in addition to violation points.
- d. The State Agency may impose a civil money penalty (CMP) in lieu of a State Agency disqualification sanction. The CMP calculation, collection, and limitations are described above in Section II.i.
- e. A vendor that is assigned or accumulates five (5) violation points or more in any two-year period shall be required to submit a corrective action plan outlining the steps for addressing its violations.
- f. The following violations are assigned specific State Agency violation points and sanctions. State Agency violation points and sanctions are commensurate with the number of points accumulated for one or more of these violations in any combination:

Any combined total of:

- 5 – 9 points** = Initial or follow-up warning letter with required corrective action plan.
 - 10 - 14 points** = Follow-up warning letter with required training.
 - 15 - 17 points** = State Agency Sanction - 3 month disqualification or CMP
 - 18 - 19 points** = State Agency Sanction - 6 month disqualification or CMP
 - 20 or > points** = State Agency Sanction - 1 year disqualification or CMP
